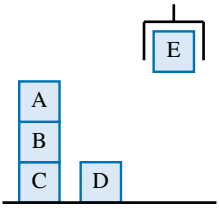
(a) A legal state and its true facts



on_table(C)
on_table(D)
on(A, B)
on(B, C)
clear(A)
clear(D)
holding(E)

(b) Decoded prior samples that break a constraint (2×256, $\beta = 1$)

A is clear, but D is on A

on_table(A)
on_table(E)
on(B, E)
on(D, A)
holding(C)

clear(A)
clear(B)
clear(D)

B is not on the table, on a block or held

on_table(A)
on_table(C)
on(D, B)
on(E, C)
B has no place

clear(A)
clear(D)
clear(E)
hand_empty

the hand is neither empty nor holding a block

on_table(A)
on_table(E)
on(B, E)
on(C, A)
on(D, B)
hand_empty missing

clear(C)
clear(D)
